

Mountain View SPECS Monday Night Net Script

From the main net, "Who will take check-ins for Mountain View?"

Check-ins for Mountain View ARES will be taken on the simplex frequency of 146.535 MHz (or 147.495 MHz). Mountain View stations go there now, please. This is <your call> <at K6MTV / operating remotely>.

Switch to 146.535 simplex (or alternate).

Is this frequency in use? <pause...> Nothing heard.

This is <your call, your name> taking check-ins for Mountain View ARES/RACES on Monday night, <date>. Our scribe tonight is <call sign, name>.

<call sign> do you acknowledge? (listen for acknowledgment.)

I acknowledge those present at this station or heard on the Main Net:

Record calls and state calls/names of M.V. operators present or heard.

All Mountain View ARES Assistant Emergency Coordinators present, please check in now.

Record calls, and/or note calls/names on Mountain View checklist.

I copy: State calls copied (include first names).

All stations with suffixes A through F, Alfa through Foxtrot, please check in now.

Record calls, and/or note calls/names on Mountain View checklist.

I copy: State calls copied (include first names, if available).

Are there any other check-ins or any relays, Alpha thru Foxtrot?

Record calls, and/or note calls/names on Mountain View checklist.

I copy: State calls copied (include first names, if available).

Scribe, my total for this group is <number>, do you concur? (reconcile if different.)

Repeat this process for suffixes G - L, then M - S, and T - Z.

Last call--All stations with suffixes A through Z, Alfa through Zulu, please check in now.

Record calls, and/or note calls/names on Mountain View checklist.

I copy: State calls copied, or "Nothing heard," (include first names, if available).

Scribe, my total for tonight is <number>, do you concur? (reconcile if different.)

This concludes Mountain View check-ins. While I go back to the main net to report, I will turn the net over to our <EC/AEC/Shift Supervisor>. <your call>

While EC has the net, switch back to 145.270 (-). Wait for a pause in main net traffic.

Net Control, this is Mountain View.

When acknowledged by Net Control, state:

Mountain View had a total of <number> check-ins this evening. Standing by for city totals. This is <your call>.

Wait on Main Net until total is announced, note totals, then return to 146.535 (or 147.495). If local net is still in session wait for announcer to turn the net back to you.

Mountain View had <number> and the main net had <number> check-ins tonight.

Also report totals for other cities, packet, and UHF.

Is there any other business for the local net? <pause...>. Thank you for making your time and equipment available to the net. This is <your call>, returning the frequency to general use.

Turn in your list of check-ins to EC/AEC/Shift Supervisor for recording into the master log book.
